

Submitter: NANCY LOEB

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

I oppose 3103 measure. There is so little being done to protect us from global warming two little too late. Therefore a carbon sink is even more important than ever. In addition, we have persistently shrinking area for wildlife and balance ecosystems. Therefore, I oppose any increase logging. I also oppose giving timber companies the option of suing to force the caretakers of this land into more clear cuts.
