

Submitter: Jana Smith

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

No tax on tires! Please do not making costs higher for the working class to get to work. People are struggling with inflation and the cost of gas, groceries and supplies is too high already. I know a few families that have left the state for Idaho and Florida, which effectively gave them an instant raise because cost of living is so much cheaper. Don't drive more people away.
