Please vote No on this tire tax HB3362. There doesn't need to be a tax on every little thing to try and fill your budget crisis due to the wasted money in the state government. This bill will only hurt the low and medium income residents in the state. This is taxation without representation when you keep taxing us to make up for your shortfall of funds due to negligence of the officials in charge or the Federal funds you are going to loose out on for treasonous acts in the state helping funding illegals with food stamps, cash, housing and health coverage. Our utilities are sky high as well as gas you want another 35cent tax on. When does it stop? The people have spoken according, to all the opposition for this ludicrous bill. I would advise Representative Helm to try addressing the money shortage that ODOT is having and money to fix the roads in this state., instead of always trying to squeeze more tax money from homeowners, rural farmers, and ranchers for some public train transit for Portland. There are much more important issues in this state that need to be addressed, now. .
