Please do not tax my next tires. More taxation continues to make life more difficult. My experience is that if i delay replacing my tires, to save money when the tires become worn, i more easily get a flat tire and then am sitting dangerously on the roadway or some other unexpected place. We already PAY to title a vehicle, PAY to register a vehicle, PAY fuels tax to drive a vehicle, PAY to insure the vehicle, PAY to get a driver's license, PAY to recycle the tires --- please stop, stop , stop.
