

Submitter: Keith Westrum
On Behalf Of: self
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

ANY taxes collected from using roads (gas, tire, snow park, vehicle, etc.) should ONLY be used for road maintenance and repair.

Do NOT use these taxes for "environmental " issues. This should come out of politician's pockets if you want to fund a pet project. We have far more urgent and important things than some boondoggle close to your heart.

No bridges to nowhere!

Enough guppies can eat a treasury.
