Measure, Appointment or Topic: HB3012

I strongly oppose HB 3012. I am surprised that something like this is even being considered in our state. Lets let our minor children grow and mature during this important time in their lives. There is absolutely no reason to place the responsibility for voting into a minor child's life. Parents know what is right for their children and there is no reason to confuse or complicate this process. Please spend your time working on the many real problems in this state without creating more.
