

Submitter: Melinda Hutson

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Portland residents are already paying some of the highest taxes in the United States, and our roads are in deplorable conditions. We already have a transit tax hidden in our paychecks. Taxing tires will have a much larger detrimental effect on the less affluent people in our community, who are already struggling with high Portland cost of living and things such as the stupid Arts Tax (imposed on anyone making more than \$1000, so if you make \$1005, you have a huge \$35 tax to pay). NO TAX ON TIRES!!!
