

Submitter: Karen Rodriguez

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Please do not impose additional expense for my family and I. We struggle to make ends meet as it is. My son drives Uber putting a lot of wear on his tires. All the rural areas have no need or access to light rail. Little pollution is caused from tires as well. This bill will be of little advantage to the majority of American Oregonians.
