

Submitter: Mark Smith  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362  
To the Oregon Legislature.

A tax on tires is not a fair tax. Especially considering the tax would not be used to improve our roads or benefit the driver, their families or a business with their travel needs to simply operate their business.

**THIS IS TAXATION, WITHOUT REPRESENTATION!**

It is time for the government to listen to the people they serve.

We want less taxes, smaller government, and less regulation!

Sincerely,

Mark E Smith
