

Submitter: Diana Lanius

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

At a time where our world is spiraling due to unchecked and blatant disregard for it and all that it provides us it is even more critical that we maintain and continue to put the environment and natural habitats of our forests first vs. big business only wanting to make a buck on the natural resources. I know I won't be around to know if and how humans kill the planet but I am here now and opposing things that put it down that path now is all I can do. I vote in folks who I believe put the good our the people and our local communities and environments first, not the big business or politics at the federal level and I expect them to support doing what is right for us. Will you disregard our forests and our communities for a buck?
