Measure, Appointment or Topic: HB3103

Please support HB 3103. It is time all government is transparent to the people of the state. I have lived in Oregon all my life (71 Years). I fully support logging and clearing underbrush from our forests. Clear cuts make a fire break and they are replanted for sustainable growth. It is really foul when environmental groups get money from outside of Oregon to sway opinion here and/or spread lies about what the text of a bill really says. Oregon was a logging and farming state when I grew up here. Apparently the way we use to manage things made lots of people want to move to our beautiful state, so we must have been doing something right.
