

Submitter: LuAnn Anderson
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

My name is LuAnn Anderson and I live in Plush, Oregon. I am the teacher at our local public school single classroom, Plush Elementary. I currently drive on the average of 800 miles a week into Lakeview, Oregon for groceries and extra - curricular activities, as well as Klamath Falls, Oregon for weekly DHS visitations. I go through a set of tires yearly at a cost of over \$2000. Your tax of 4% per tire would unfairly tax me, especially as the money is targeted for public transportation in Portland and the I-5 corridor. This additional \$80 may not seem like much to you but it is a tank of gas for me, not to mention the addition charges that will likely be tacked on to provide you the accounting and the money. I ask you to make things equitable for the rural counties and tax the area that this is going to benefit.

With the epic storm that we have just survived in South Eastern Oregon I would like you to consider that the other 100 + voters in our valley who probably spend close to \$100,000 on car, truck, trailer, and utility vehicles would also be unfairly taxed but currently don't have the time to respond no. Please realize this is truly unequitable to your rural three fourths of underrepresented Oregon and do the right thing by voting NO.

Thank you,
LuAnn Anderson
