

Submitter: Jerry Willey
On Behalf Of: Myself
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

I oppose this bill. Our transportation system is in a critical situation. We need to be looking for a solution that will address all the demands of an efficient transportation system. Legislature is considering this tire tax, a vehicle registration tax, increase in gas tax and other ideas. Don't tax us to death with a thousand cuts. Have a plan and implement it.

Mostly this bill will take the money raised and use it for non-transportations purposes. We need to fix ODOT first.

Please vote NO on HB3362.

Thanks
