

You Oregon democrat lawmakers (because everything you want usually happens, and you're successfully disenfranchising the rest of us) need to remember it's not your money you spend: it's ours.

Do the hard work - clean your fiscal house, cut waste: you'll probably be surprised; we've already given you the money for all our state's needs, but you've been negligent managing most everything.

Demand accountability in your inner-circle. Don't let anyone rob us (like you did, kitzhaber and brown). Remember you're one of us; make a budget, set hard boundaries with allocations, and stick to them. Don't rob insurances to pay for frivolity.

And watch this: <https://www.imdb.com/title/tt0120623/>

We're out here working hard, and tired of seeing you continue to rob and abase our state.
