Resources, and Water

Measure, Appointment or Topic: HB3103

I urge you to reject House Bill 3103. Oregon's state forests must be managed for clean water, wildlife, recreation, and future generations—not just logging. The State Forest HCP was developed with years of public input, and the courts have upheld Oregon's right to manage these forests for multiple benefits (County of Linn v. State of Oregon).

Don't let the Timber interests log our public forests at reckless and unsustainable levels. I expect you to stand up for our unique environment.
