Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

As a parent of four sons, my wife and I have raised our boys to earn money and buy things they need. Developing a work ethic and not a sense of entitlement. This includes the upkeep and maintenance of their vehicles. A tax on tires would be an unnecessary financial burden on them as they navigate the challenges of paying for college, housing, and required living expenses. Please consider those in Oregon that work hard to make ends meet. Please do not create an excise tax on tires. They already pay income taxes to the state of Oregon each year.

Thank you.
