

Submitter: Robert Egnor
On Behalf Of: Voting Citizen and Tax payer
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

I'm opposing this because it is a ridiculous tax that can't and won't change anything for the better. The people that drive the most already pay higher sales tax on gasoline.

Repeatedly Oregonians have denied the approval of sales taxes in Oregon. Yet here legislators are yet again trying to install a sales tax under the name of Excise.

And one of the goals is to help collision issues with wildlife? Are you going to train wildlife? No you aren't. You going to fence more public property or force private owners to fence? You'll just have the wildlife jump it, go around creating a new area of danger and further restrict citizens.

NO !! Vote NO on this ridiculous government overreach bill.

Vote no to illegal taxation !!
