Measure, Appointment or Topic: HB3362
HB 3362

To the Joint Committee on transportation

This is another bad bill. It only adds to the onerous tax burden of Oregonians, but does nothing for the road maintenance funds. This just adds funds to light rail when Tri Met ridership is declining due to personal safety concerns. You really think we need to fund more environmental programs?
What we desperately need is a state DOGE administrator to clean out this kind of garbage.

Sincerely,
Richard Todnem
Myrtle Creek, OR.
