

Submitter: Mariam Gregg

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3103

I oppose House Bill 3103. It does not have the health of our forests in mind, and will negatively impact the health of Oregon wildlife such as salmon. Marking forests for timber detracts from their value as sites of carbon storage and as habitats. Please reconsider this bill, and shift your attention toward policies which prioritize ecological health and conservation efforts. The most sustainable decision to make right now would be to leave our forests alone.
