

I am OPPOSED to a tax on tires, with particular emphasis on redirection of such funds to non-road related purposes! Stop trying to force mass transportation on a populace who doesn't want it. The majority of communities in Oregon don't even have access to it, so this tax only benefits Portland and Salem while taking resources away from the rest of the state. Vote NO on on this measure!

Even if this was a good idea (IT IS NOT), now is not the time to be adding any taxes. Learn to spend less, like the rest of the country. Government should be shrinking, not getting bigger.

Thank you.

Tony
