Stop taxing us! This is just a round about sales tax on more goods. You have the CAP tax and now tax on specific goods. Enough is enough. Oregonians have voted down sales taxes time and time again. Stop forcing more taxes on us! We already pay higher income tax to state than federal government. No one's wages are going up as much as you Demorats think you need to tax us. Just stop already! You need to live off a \$18/hr job and see how difficult these taxes are making our lives.
