

Submitter: Heather Ikeler

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

Dear Co-Chairs Helm and Owens, and Members of the Committee,

I have been visiting and enjoying our State Forests since I moved to Oregon in the early 1970s. They are a treasure that belongs to all Oregonians and their management must necessarily be for the benefit of the people of our state and not for the timber industry.

I oppose House Bill 3103 and its amendments. This timber industry bill undermines the state forest habitat conservation plan and would result in more clearcuts, more lawsuits, less habitat for salmon and wildlife, and less carbon storage.

In 2021, the Board of Forestry adopted a Climate Change and Carbon Plan (Climate Plan) for state forests with the goal of establishing Oregon as a national leader in climate-smart forestry. HB 3103 requires a rule establishing 10-year harvest levels that would preempt the Climate Plan.

I urge you to oppose this bill. Instead, I encourage this committee to focus on measures that would increase carbon storage in our state forests and safeguard our public resources for our children and future generations.

Please don't let this bill pass out of committee.

Sincerely,
Heather Ikeler
