

Submitter: Ward Barker

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I notice when the Democrats are in power, they're all about taking the people's money and giving it to others. Higher taxes, more government, more expenses AND more expensive. Year after year, it's always about taxing the people, taking more money. The people keep saying "NO! Enough!", but the Democrats don't listen.

They say, "It's only a few pennies!", but have you seen the price of tires? It adds up to more than just a few pennies! And its OUR money, not yours! And then the Democrats want to take those tax monies and spend it, NOT on road and highway maintenance, but on projects that those who drive cars won't use.

The problem is NOT that there's not enough funds, it's that the funds already collected don't go where they're supposed to go. Too many levels of management, not enough people doing real work.

NO MORE TAXES!!
