

Submitter: John Livingston

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I am willing to pay a tax on tires to support HB 3362. Everyone buys tires and wildlife crossings are very much needed in Oregon. Washington has great crossings and California is getting on the map for a few of them. We need to stop the trauma of killing our large and small wildlife with our vehicles. Please pass this legislation to fund wildlife crossings, tire pollution prevention and rail system improvements
