Measure, Appointment or Topic: HB3362

Taxation in Oregon is already one of the highest in the country. Adding yet another tax is asking to burden tax payers even more, every day working people are already struggling under over regulations and high taxes. As a tax payer, I would much rather see you clean up the waste, fraud, and abuse currently happening in our state. The oops we lost a billion dollars at ODOT doesn't give confidence that any revenue made by this tax would not also be lost in an accounting error.
