Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

To whom it may concern, I am writing on behalf of my support to create a funding mechanism in favor of building / creating future animal crossings over roads. I have seen first hand the impact that hitting and killing animals on roadways causes. As an avid outdoorsman with many trips on highways that bisect natural areas, this impedes natural animal travel patterns and puts both the animals and drivers at serious risk. I support more crossings to get animals off of roads and away from risk of injury to themselves or us on the roads.
