

Submitter: Bruce Carlson

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

This is a REGRESSIVE tax. It hurts the little guy. The tax on a set of tires would be equivalent to two days of groceries for a family of four. Also, it disproportionately affects rural families which generally had to drive further miles to obtain goods and services.

If Democrats are for the little guy, any Democrat who votes for this is a hypocrite.
