

Submitter: Michele Eldridge

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Our family opposes an additional 4% tax on tires. Tires are expensive enough without being charged additional taxes for mass transit and environmental programs. Where we live, there is no mass transit. If citizens in metro areas would like more funding to go to the Tire Pollution and Rail Transit Fund, then they should find a way to raise funds for it without charging citizens in rural areas of Oregon.
