Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I strongly oppose this new tax. The State adds new programs with new and likely permanent funding to Oregon's budget every year rather than properly funding core responsibilities first, such as ODOT, and making sure those core functions spend our tax dollars prudently and efficiently. The budget of this small and getting smaller state has grown to an indefensible level to fund this ever bigger state government. It is time to stop this bloat and stop increasing taxes on Oregonians. Eliminate newer programs and redirect those funds to core State responsibilities.
