I support teenagers registered to vote at 16 and 17 years of age the privilege of casting ballots in school district elections. I am in my '80s and wish that students back in my day had been able to have a say on what happens in school districts. To have a voice in the current and future goals and opportunities concerning education will not only allow them to have their voices heard but also to learn about the election process and continue to be involved in their communities and schools as adults.
