

Submitter: Erik Christy
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

I am in strong support of HB 3362 because our state wildlife is part of the Oregon family. We should respect, not kill each other. These projected wildlife crossings will allow both of us to grace our lands in mutual safety and respect. Passage of HB 3362 will allow Oregon to join other progressive and humane states which honor the human/ wildlife relationship.

Thank you.
