

Submitter: John Paul  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362

I am a winemaker in Yamhill County and I was alerted by my Senator, Comrade Starr, to pitch testimony against this. But I disagree with Comrade Starr, just as we disagree on his support of Russia! I think finding a way to pivot away from automobiles and toward public transportation (which is used predominantly by poor people) is a good idea. Furthermore, I drive an electric car and so I do not buy gasoline which means that I do not contribute to highway maintenance. So the one thing that I might agree with Comrade Starr on is that at least part of this tax should go to maintaining road infrastructure by electric cars.
