

Submitter: Barb Raines
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

Dear Legislators

I oppose Measure HB3362 No Tax on Tires. This is just another tax being imposed on the citizen without a vote of the citizen. It is unconstitutional to impose a tax without a vote of the people. Another slush fund for the bloated bureaucrats to spend at will. So much money is wasted already at the hands of the transportation agency how about we sniff out the fraud, waste & abuse instead. Why do we need a slush fund for wildlife & automobile interactions? That is called Auto insurance! Tire pollution and rail transit? The rails are owned by the railroad companies so they are responsible for their own expenses and tires don't pollute so not necessary. All this is a way to tax the citizen for public transportation and rail transportation so as to keep the citizen from owning and driving a car. Get our of our business, get out of our garages, get our of are cars, quit telling us what to drive, where to go and how to get there. NO TAX ON TIRES! If you are so sure we need this then put it up for a vote by the citizen
