

Submitter: Mary Addams

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3103

Please oppose HB 3103. It's a timber industry dream come true...it would allow logging of even more old trees. Are humans crazy? Standing trees, especially old ones, mitigate climate change. They are the lungs of the planet, they create rain and oxygen, and absorb CO2. We can't keep abusing the planet and think it's ok. Old trees are a national treasure, and they should be treated as such. Please don't let this bill out of committee. My grandkids (and yours too) depend on protecting our forests. Cut the tree farms, not the forests.
