

Submitter: Deborah Stumpf
On Behalf Of: our family
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

We oppose the 4% tire tax and ask that you please do the same. This tax from a senior citizen standpoint is yet another burden to our limited income adding additional stress to our financial burdens. Tires are a necessity for safety getting us to and from doctor appointments and grocery stores. This would be yet another burden to our limited income. With the increase of tire prices this would be a significant amount of money. I feel this tax would encourage people to purchase tires in other states and take away income from local businesses, Please do not pass this bill. Thank you in advance.

Robert and Deborah Stumpf
