I vehemently oppose any action that endangers our wild forests and the animals that rely upon them. Our country is in enough chaos due to climate change, overuse due to neglect & greed by humans. Those who see the almighty dollar as their god care nothing for our precious wild places. What kind of world are we leaving for the future generations at the rate of destruction at which those who live by greed are destroying wild places? Wake up and realize the destruction you wrought for the almighty dollar. Stop destroying our natural, wonderous wild places. Once it is gone, there is no return.....
