HB3362

I'm very much opposed to this bill! ODOT is in deep enough with their \$1+ B shortfall and I do NOT consent to paying 4% more for tires for an experimental land bridge crossing for wildlife over I-5. I haven't seen any video footage of wildlife utilizing the tunnel under Hwy 20 between Newport and Corvallis. This is just blatant disregard for Oregon taxpayers and where tax money should be going. Anyone who has knowledge of wildlife knows they don't read and are skeptical (skidish, hesitant) of new things.

Stop forcing taxes on us and stop spending our money on frivolous nonsensical hogwash.
