

Submitter: Kimberly Wilcox

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

I strongly urge you to vote no on this bill. It is time to take a stand against the horrific clear cutting that is ruining our state, endangering wildlife, the safety of our ponds and streams, and contributing to global warming. The excuses for this continuing practice are not valid and are a result of faulty thinking. Scientifically there is no such thing as "sustainable" forests as once ruined they no longer meet the definition of a forest they are simply a stand of trees that is growing just so they can be cut down without regard for the devastating impact on our environment. Please be a voice for our living beauty in Oregon and say no to House bill 3103
