Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362

1. No taxes on tires;
2. No diversion of funds from roads (repair, replacement, maintenance ONLY);
3. No diversion of funds to transit or environmental interests (non-profit or otherwise);
4. More taxes on already burdened low and middle income households is criminal (not to mention unconscionable and unethical);
5. Those who can least afford more taxes are the very taxpayers you are wrongly targeting;
6. Just as those who have planned tolls, there has been NO GUARANTEES to not divert funds and/or continue increasing taxes/tolls/revenues without accountability; nothing new here.
