Some things never cease to amaze me. With all due respect, children should not have the ability to make such important decisions concerning their future on so many levels in a government institution. Right now parental authority has been whisked away by the deception of DEI, and this gender nonsense, and the onsite "health clinics". Schools are places where a child should truly be safe and learn the basis of reading writing and arithmetic, not be indoctrinated into this psychosis. This is very destructive and now you want to not only manipulate our children but give them the power to participate in this insanity. No! Get your kids out of these government indoctrination centers. I STRONGLY OPPOSE HB3012

Thank you
