

Submitter: Katrina Nielsen
On Behalf Of: Oregon forests and eildwife
Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water
Measure, Appointment or Topic: HB3103

I oppose this bill because Oregon needs to manage our forests for the future. Managing for timber harvest without considering clean water, wildlife habitat, fish population and global warming is short sighted in the extreme.

The Oregon legislature should not ignore the needs of all of Oregon's residents whether they can speak to lawmakers or not. The timber industry should not make the decision of what is cut and what is protected. Preserved forests will preserve our state, our climate and our livability.
