

Submitter: Melinda DeShane

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I speak in opposition to HB3362. NO TAX ON TIRES. There is a tax to use the roads. There is a tax for the gasoline needed to operate a motor vehicle. There is a tax to register the vehicle. There is a tax on the purchase of the vehicle. Whats next? A tax on how many miles we drive annually? Didnt we separate from England for this very reason? With all of these taxes and regulations one could be led to believe that the state wants to do away with privately owned and operated motor vehicles. The costs of owning and operating a vehicle will soon be only for the wealthy at this rate. NO to tax on tires. NO MORE TAXES!!
