

Submitter: Jasper Bennett

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3587

As a birdwatcher and lover of wildlife of all kinds, the biodiversity supported by rocky ecosystems is very important to me. I go to Haystack Rock every spring to see the tufted puffins nest, and love seeing the starfish, sponges, and anemones in the tide pools of Oceanside beach. As the effects of climate change become increasingly powerful, it is essential that we do all we can to protect this vulnerable and unique habitat. Please support this bill. Thank you.
