

Submitter: Nancy Nowlin

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

I am asking you to please vote No on HB 3103. Please do not give in to billionaires and big business whose only aim is to increase profits. They do not care if our forests and ecology are damaged beyond repair. They do not care if flora and fauna become impacted to the point of extinction. These lands and trees belong to the public. They cannot be allowed to destroy them for their own selfish gains. We have to decide which direction our planet and existence is heading: to sustainability or destruction. Please vote for what you know is right and don't let money be our downfall. Where will your descendants live if you let destruction occur now? Where can they enjoy time in nature and the ecology that sustains our very lives? It's not inevitable, we just need our elected officials to remember who they are there to represent: the people of this state and NOT monied interests who do not care about the world of tomorrow or future generations. Thank you.

Nancy Nowlin
