

Submitter: Kim Beeler
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

I support HB 3362 to offer safe wildlife crossings. I have personally witnessed the carnage of animals attempting to cross dangerous and increasingly busier neighborhood streets and roads. Most drivers that I have witnessed don't seem to care about hitting wildlife with their vehicles and this has shown me the need to offer our wild neighbors safe ways to cross busy roadways and highways across the state of Oregon. For me, this is a humane solution for what will continue to be an increasing problem and need to keep wildlife safer from injury and death as well as the trauma inflicted in humans that witness this carnage.
