I oppose the proposed tire tax. The citizens of Oregon can not sustain new taxes. We are collectively hurting financially. We ask that the politician who give out our tax dollars would consider investigating the usury of our money. Is our money going to legitimate and necessary entities for viable things that actually benefit the hurting people of Oregon?

Additionally, it is my view that people are more important than animals, the government is to ensure our protection and security.

Thank you for receiving my testimony in opposition of this proposed tax.  
I oppose HB 3326  
Respectfully,  
Beth Keyser
