

Submitter:

Loren Miller

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1003

I am strongly opposed to this proposed legislation. We are given a finite amount of time to live on the face of this earth by our Creator. Human beings have a duty to help all to live out the days they have been given. We should not be helping people to end their lives, but rather, help them make the best of what moments they have left. Let's enhance their "Quality of Life"!
