

Submitter: Sarah Haavind
On Behalf Of: wildlife crossings
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

Please continue funding the construction of wildlife bridges. The research shows how much they save lives, cost for car owners, and of course, our treasured wildlife who travel across our roads. So many lives, both human and animal, have been taken unnecessarily because we have not provided alternative crossings for wildlife. Let's keep this smart funding in place. Thank you.
