Pamela Pries

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1003

Dear Senators,

I ask that you oppose SB2003 because of the danger it presents to vulnerable people who struggle with serious issues and believe wrongly that suicide offers them a good solution to their situation. In addition, the two day waiting period is not enough time for most anyone, to get to a place where their thinking can/will shift from hopelessness to trust. The convenience of being able to access lethal meds so easily is a serious concern, as well. Please vote 'no' on this dangerous bill. Thank you, Pam Pries
