How will you ensure that persons eligible to vote for school boards do not vote for other items/races? Will this require printing separate ballots? What is the fiscal impact of tracking, printing, and counting those? We have already seen mistakes happen due to the motor voter rule where people not wiggle to vote were able to because they were accidentally registered to vote and did so.

Teenagers are not treated as adults. They cannot smoke, get a tattoo, sign a contract, etc., yet you want them to have a vote? Why do we have laws in place protecting minors? Because we recognize they are more vulnerable and not able to make these decisions until they are older.
